Citizen Science Assignment

0. Fill out this short survey on the previous FSL session: <http://tinyurl.com/FSLsurvey1>
1. Go to **zooniverse.org**
2. Choose one of the **Space** projects that interests you.
3. Follow links to read about the science goals, and project background.
4. Participate in the project! Take a user tutorial if its available.
5. Answer these questions and be prepared to discuss the project at FSL next week.

Name of Project:

What are the science goals?

Outline the basic steps of participating in this project. What is the most difficult or tricky part?

What is the most interesting thing you learned while participating in this project?

Why are citizen scientists needed for this particular project? Why can't a computer do this work?
